Getting started with Free Website Build and Hosting on your own Domain!

Embark on your SaleRise journey with this comprehensive guide, answering the four main questions:

How to Create an Account?

How to Create a New Site?

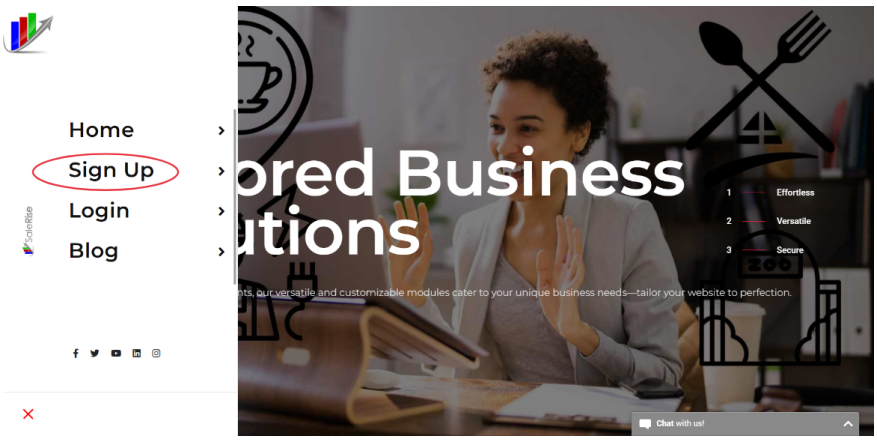

How to Publish Your Site?

How to Find Your Published Site?

How to create an account ?

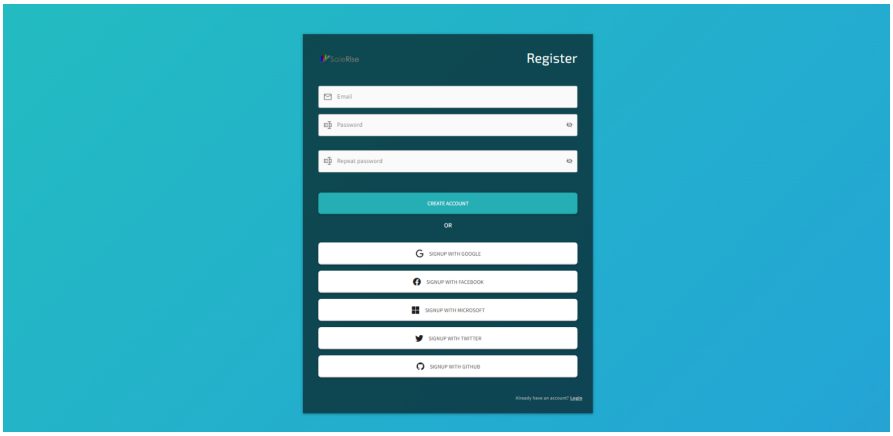

- **Open the Homepage**
  - Begin by navigating to the website's homepage (https://www.salerise.com/)

- **Initiate Sign-Up**
  - Click on the "Sign Up" button to start creating your account.

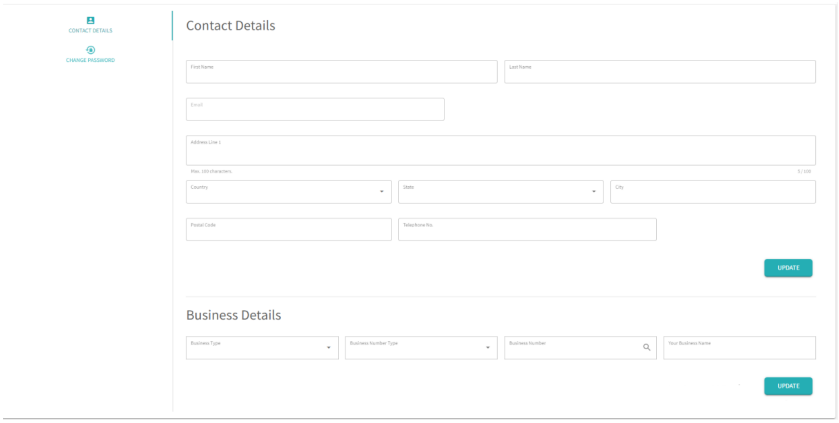

- **Registration Options**

- The registration page will appear, offering various sign-up methods. Choose from options like using your email or signing up through Google, Microsoft, Facebook, Twitter, or GitHub.

- **Log In (For Existing Users)**
  - If you already have an account, simply log in instead.

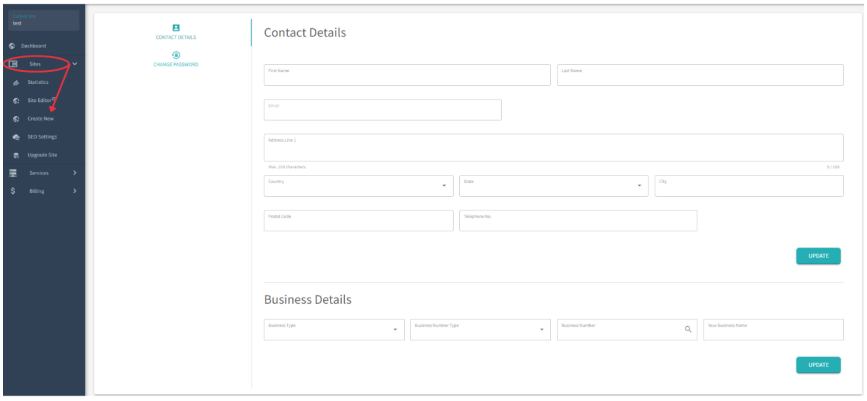

- **Complete Contact Details**
  - After registering, you'll be directed to the contact details page. Fill in the required information:
    - First and Last Name
    - Email (Note: Your email may auto-fill if you signed up using it)
    - Address Details (City, Street, Postal Code)
    - Phone Number
    - Business Details (Optional): Provide information about your business type, business number type, and search for your business number and name.

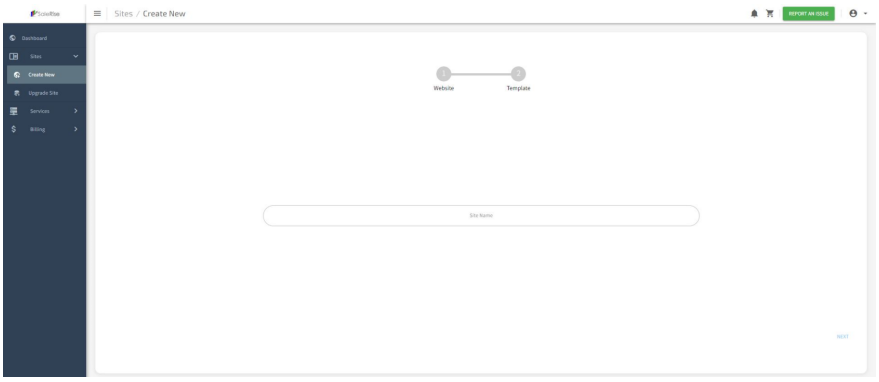

How to create a new site ?

- **Navigate to Site Creation**

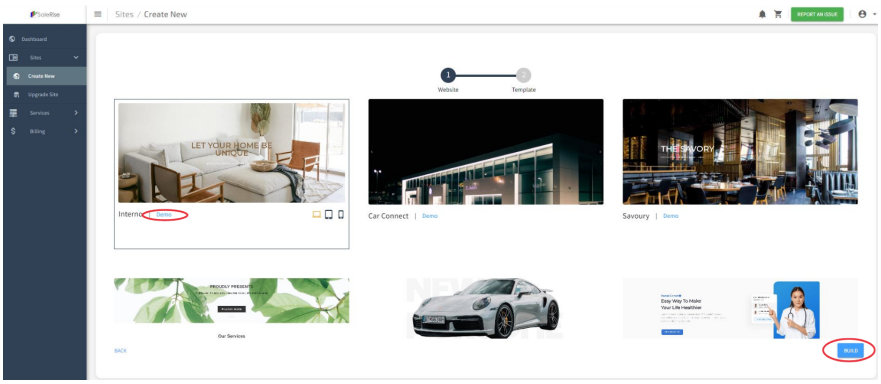

- On the left side of the contact details page, find and click on "Site" then select "Create New"

- **Choose Your Site Name**
  - A page will open, allowing you to pick your site's name. Click "Next" after making your selection.

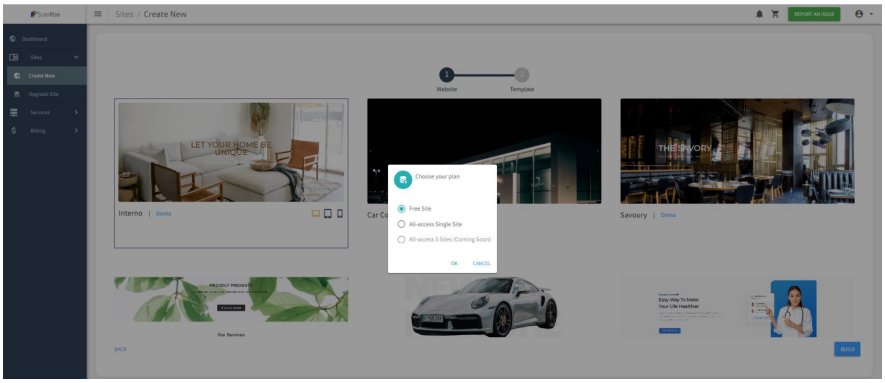

- **Select a Template**
  - Browse templates and choose one that suits your niche.
  - Click on a "Demo" link
  - After choosing your template, click "Build" to edit your site.

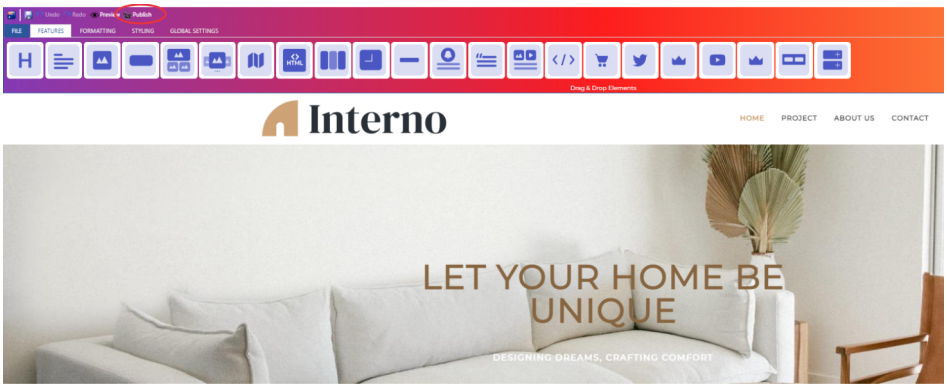

- **Pick Your Plan**
  - Select your plan:
    - Free site
    - All-access single site

- All-access 5 sites (coming soon)

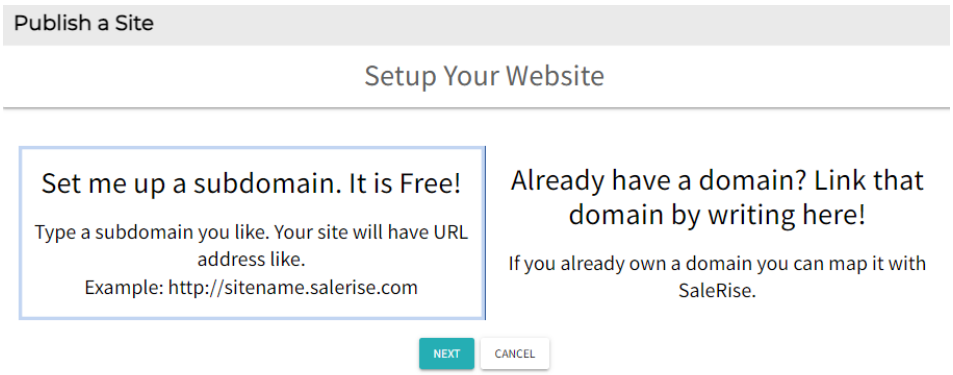

How to publish your site ?

- **Enter the Editor Side**
  - After choosing your plan, you'll be directed to the editor side.
  - Customize your template according to your requirements.
  - Click on "Publish"

- **Publish Your Website**
  - Set up your website with two options: set a new subdomain or map an existing domain with SaleRise.
  - Click "Next"

- If choosing the first option, pick your domain name (use your site name).

- Click "Publish"

How to find your published site?

- After clicking "Publish," a message will appear, "Your Request has been Received."
- Refresh your site.
- Click "Publish" again.
- Copy your website name.
- You can then browse to your published website.
