

# Getting started with Free Website Build and Hosting on your own Domain!

Embark on your SaleRise journey with this comprehensive guide, answering the four main questions:

**How to Create an Account?**

**How to Create a New Site?**

**How to Publish Your Site?**

**How to Find Your Published Site?**

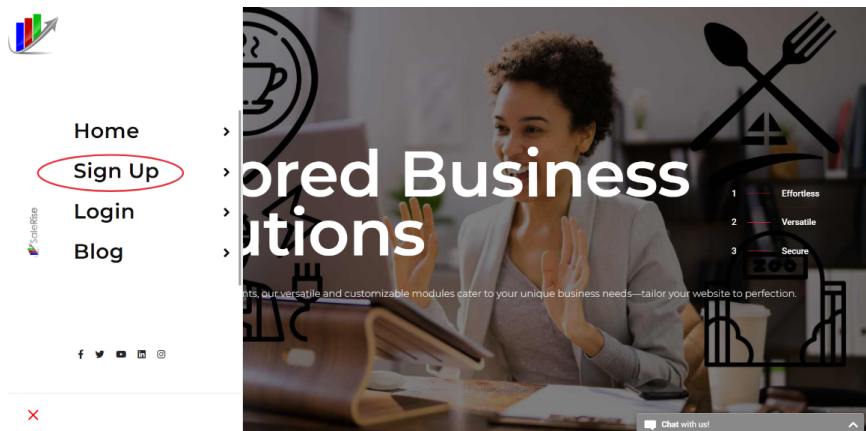

## How to create an account ?

- **Open the Homepage**

- Begin by navigating to the website's homepage (<https://www.salerise.com/>)

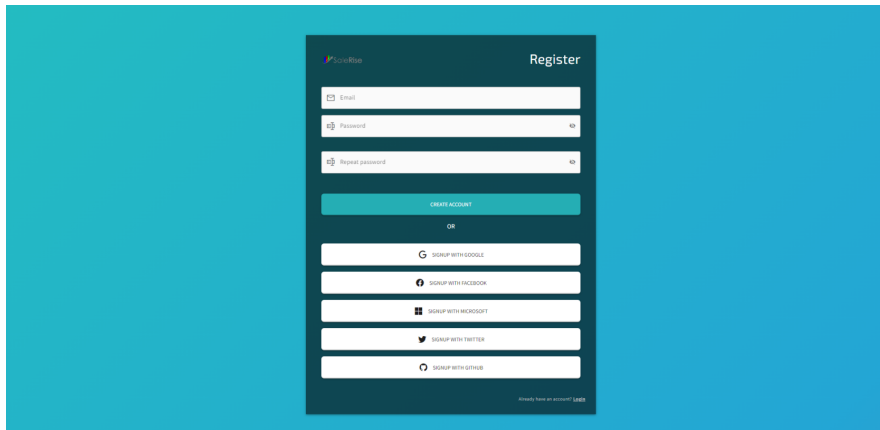

- **Initiate Sign-Up**

- Click on the "Sign Up" button to start creating your account.

- **Registration Options**

- The registration page will appear, offering various sign-up methods. Choose from options like using your email or signing up through Google, Microsoft, Facebook, Twitter, or GitHub.

- **Log In (For Existing Users)**

- If you already have an account, simply log in instead.

- **Complete Contact Details**

- After registering, you'll be directed to the contact details page. Fill in the required information:
  - First and Last Name
  - Email (Note: Your email may auto-fill if you signed up using it)
  - Address Details (City, Street, Postal Code)
  - Phone Number
  - Business Details (Optional): Provide information about your business type, business number type, and search for your business number and name.

# How to create a new site ?

- **Navigate to Site Creation**

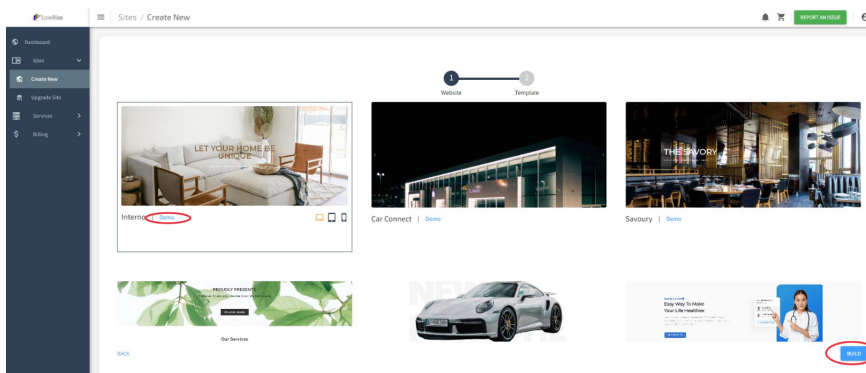

- On the left side of the contact details page, find and click on "Site" then select "Create New"

## • Choose Your Site Name

- A page will open, allowing you to pick your site's name. Click "Next" after making your selection.

## • Select a Template

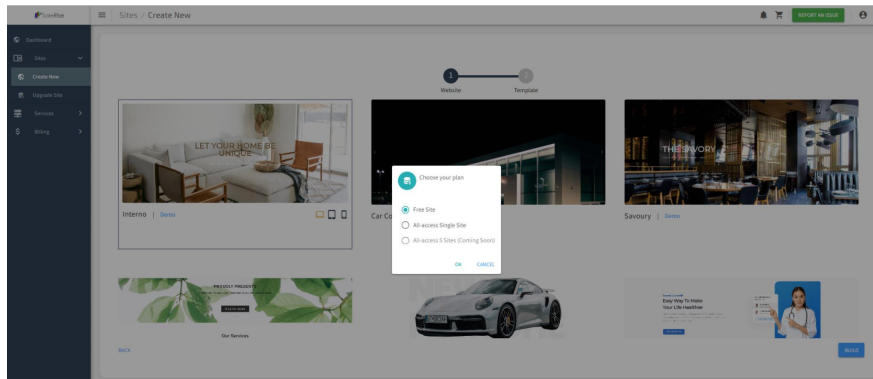

- Browse templates and choose one that suits your niche.
- Click on a "Demo" link
- After choosing your template, click "Build" to edit your site.

## • Pick Your Plan

- Select your plan:
  - Free site
  - All-access single site

- All-access 5 sites (coming soon)

# How to publish your site ?

- **Enter the Editor Side**

- After choosing your plan, you'll be directed to the editor side.
- Customize your template according to your requirements.
- Click on "Publish"

- **Publish Your Website**

- Set up your website with two options: set a new subdomain or map an existing domain with SaleRise.
- Click "Next"

Publish a Site

Setup Your Website

Set me up a subdomain. It is Free!

Type a subdomain you like. Your site will have URL address like.  
Example: `http://sitename.salerise.com`

Already have a domain? Link that domain by writing here!

If you already own a domain you can map it with SaleRise.

NEXT

CANCEL

- If choosing the first option, pick your domain name (use your site name).

Publish a Site

Setup Your Website

subdomain

.webomen.com

BACK

PUBLISH

CANCEL

- Click "Publish"

## How to find your published site?

- After clicking "Publish," a message will appear, "Your Request has been Received."
- Refresh your site.
- Click "Publish" again.
- Copy your website name.
- You can then browse to your published website.
