1.3 Service Hours Overview

In the "Service Hours" section, you can precisely define your restaurant's operating hours. Tailor the schedule for each day and add multiple time slots, ensuring an accurate representation of your service availability. This customizable feature allows you to create a dynamic timetable for takeout, delivery, and dine-in services, providing customers with real-time information on when your restaurant is open.

The screenshot shows the 'Service Hours' configuration page in the SaleRise dashboard. The interface includes a sidebar with navigation options: Sites, Services (selected), Food Ordering, Restaurant Info, Locations, Menu Items, Taxes, Payments, Active Orders, Manage Orders, and Appointment.
