How to Add Divider to Your Page ?

Through this document , you will uncover the 'Divider' feature properties in site editor page through these key elements:

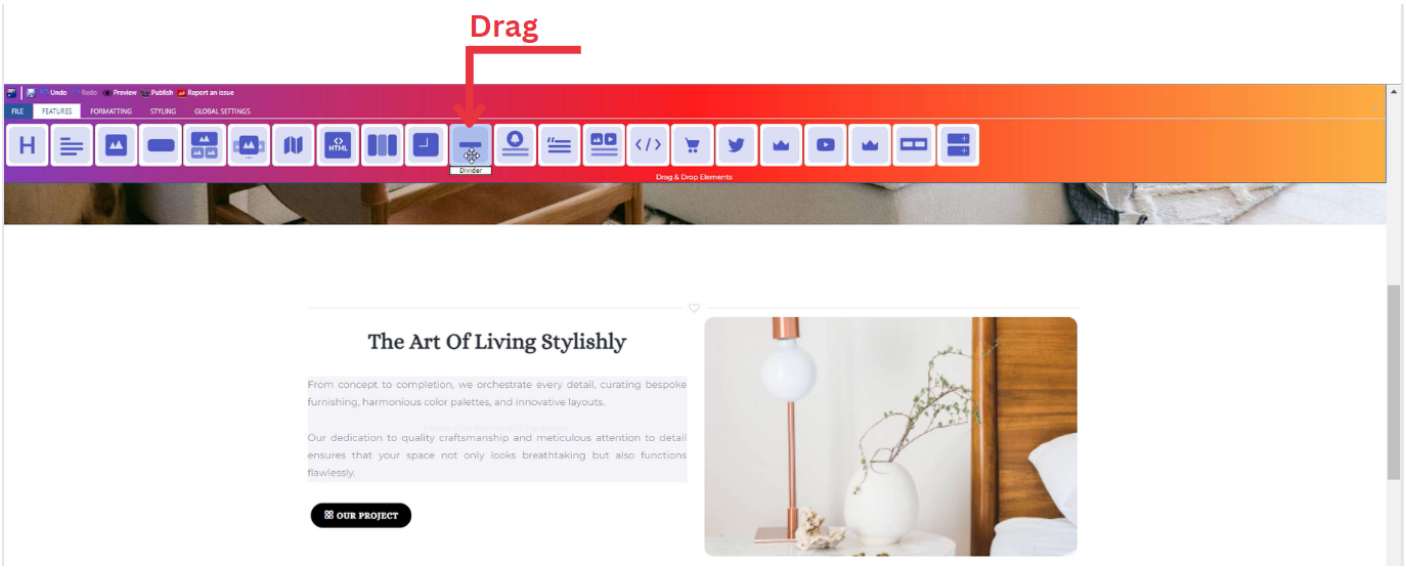

1. Adding a Divider

2. Feature Settings Window

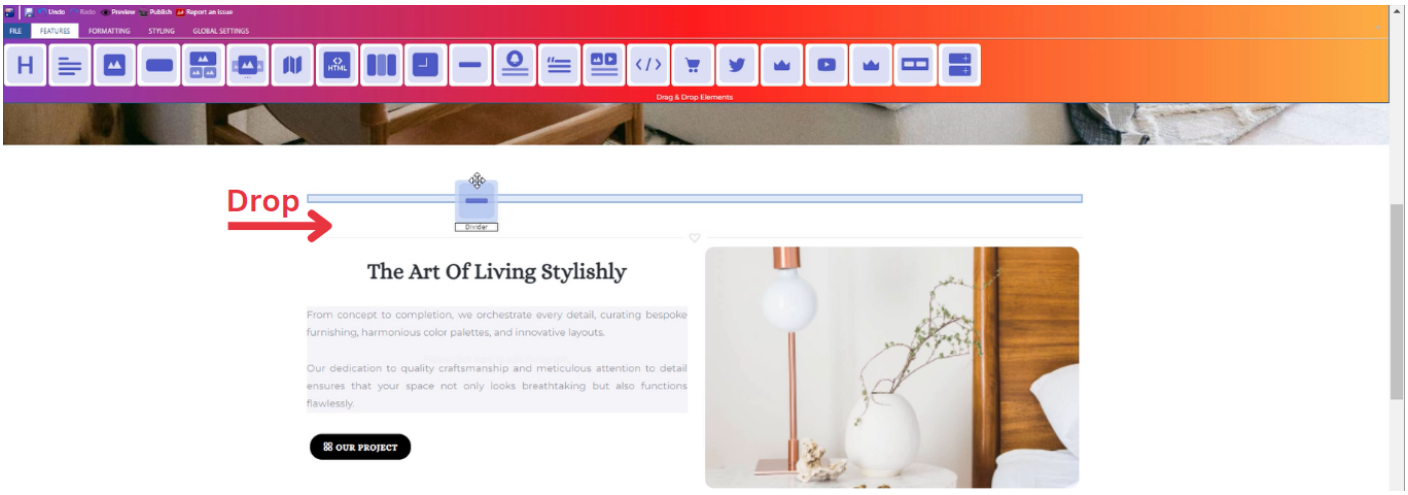

3. Style Settings Window

Adding a Divider

- Drag the divider icon from the available features

- Drop the divider icon into the desired location on your website page

Feature Settings

Upon dropping the divider, a settings window will appear, offering four main features:

- **Themes**
  - Explore different themes for your divider to align with your website's aesthetic.

- **Animations**
  - Add animation to your title from a long list of animation options.
  - Enhance your animated title by incorporating timing in seconds.

Style Settings

Design Features

- Access the "Design" feature to customize your divider appearance. Within this feature, you can determine the following properties:
  - **Margin**: Set the spacing around your divider to control its placement on the page.
  - **Border**: Define a border for your divider to add a distinct visual element.
  - **Color**: Choose the color that best complements your website's theme or design.
  - **Style**: Apply different styles to your divider, enhancing its visual appeal.
  - **Gradient**: Add gradient effects to your divider for a more dynamic and modern look.

Background Features

- Navigate to the "Background" feature to enhance the backdrop of your divider.

  - **Upload Images**: Insert images as a background for your divider, providing visual interest.
  - **Sample Images**: Explore pre-loaded image samples for quick and easy background selection.
  - **Background Styling**: Customize the divider background further with options like:
    - Background Repeat: Control how the background image repeats.
    - Background Fill: Adjust how the background fills the space around the divider.
    - Background Position: Define the positioning of the background image for optimal display.

Style Customization

- Within the "Style" section, further refine your divider presentation by adding classes from a dropdown list with a plethora of options.
- Determine how your divider is visible on devices (Mobile , Tablet , Desktop , Large desktop.
