

How to Add Sections to Your Page ?

Through this document , you will uncover the 'Sections' feature properties in site editor page through these key elements:

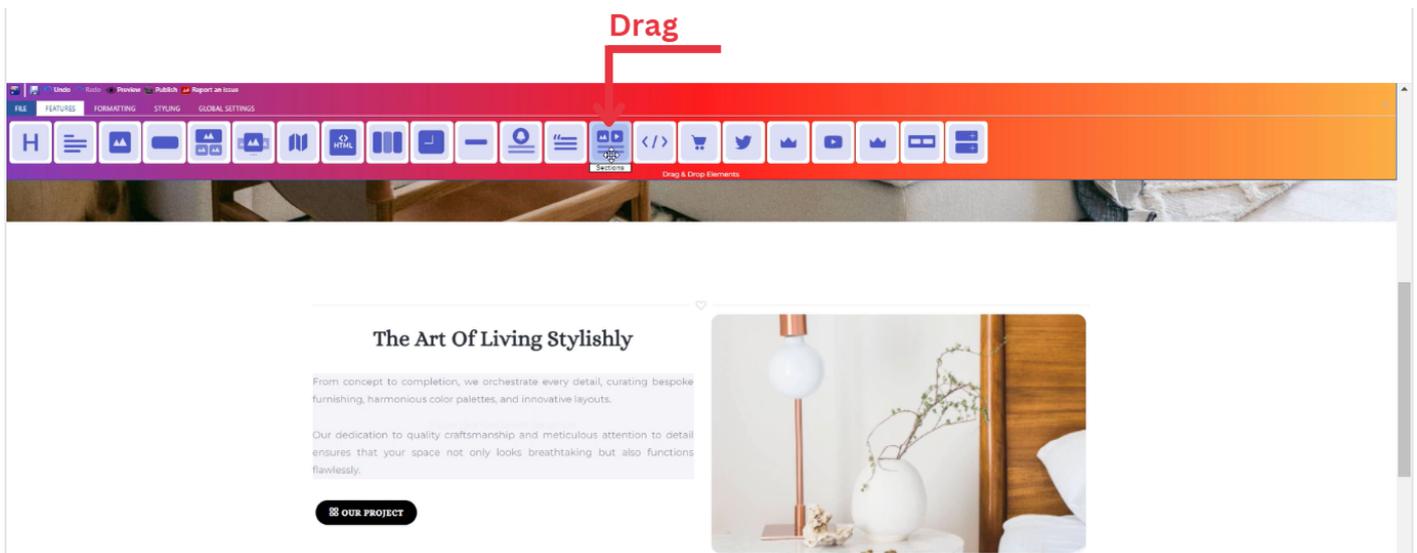

1. Adding Sections

2. Feature Settings Window

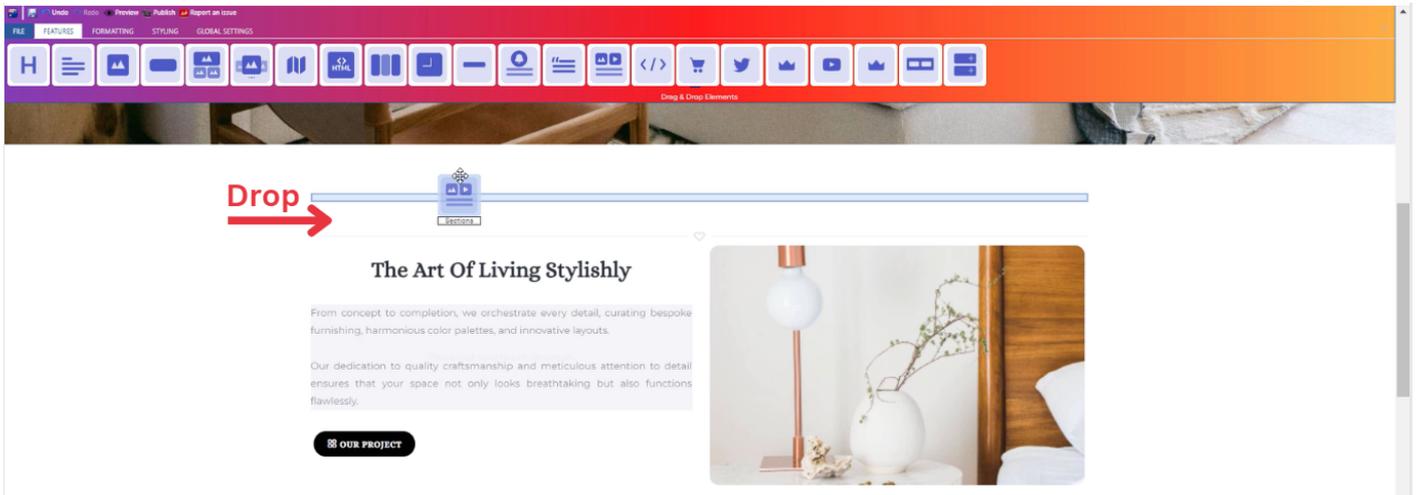

3. Style Settings Window

Adding Sections

- Drag the sections icon from the available features

- Drop the sections icon into the desired location on your website page

Feature Settings

Upon dropping the sections, a settings window will appear, offering four main features:

- **Themes**

- Explore different themes for your sections to align with your website's aesthetic.

- **Animations**

- Add animation to your title and description from a long list of animation options.
- Enhance your animated title and description by incorporating timing in seconds.

Style Settings

Design Features

- Access the "Design" feature to customize your sections appearance. Within this feature, you can determine the following properties:
 - **Margin:** Set the spacing around your sections to control its placement on the page.
 - **Border:** Define a border for your sections to add a distinct visual element.
 - **Color:** Choose the color that best complements your website's theme or design.
 - **Style:** Apply different styles to your sections, enhancing its visual appeal.
 - **Gradient:** Add gradient effects to your sections for a more dynamic and modern look.

Background Features

- Navigate to the "Background" feature to enhance the backdrop of your sections.
 - **Upload Images:** Insert images as a background for your sections, providing visual interest.
 - **Sample Images:** Explore pre-loaded image samples for quick and easy background selection.
 - **Background Styling:** Customize the sections background further with options like:
 - Background Repeat: Control how the background image repeats.
 - Background Fill: Adjust how the background fills the space around the sections.
 - Background Position: Define the positioning of the background image for optimal display.

Style Customization

- Within the "Style" section, further refine your sections presentation by adding classes from a dropdown list with a plethora of options.
- Determine how your sections are visible on devices (Mobile , Tablet , Desktop , Large desktop).
